

DIRECTORS CORNER

Fall Fun!

Finally Wisconsin's much awaited season has arrived. The days are shorter and the nights are cooler, the leaves are starting to turn. Often we want to start to hunker down and stay warm, but this is the perfect opportunity to get your kids outside and explore this beautiful season!

***Go to an apple orchard:** Though we are taking a field trip together to Busy Barns in October, go to an orchard as a family to pick some apples. Teach your children about all the different varieties; smell and taste each kind. Somehow, the apples always taste better when they have picked them from the tree themselves!

***Don't forget about the zoo:** Often times, the zoo is a summer favorite. The zoo has so much to offer at this time of year. The animals are out because it is not so hot and sticky.

***Head out to the farmers market:** This is the time of year we start seeing some late season vegetables show up at the market. Help your child pick out something new, research a new recipe and cook it together! Be adventurous!

***Become an artist:** There are so many unique projects that can be done with the beautiful colors of Fall. Make a leaf collage after a nature walk to collect leaves; create a beautiful table centerpiece using collected nuts, leaves and pinecones; or do leaf rubbings using the long side of crayons with the leaves underneath the paper. Don't forget about pumpkin painting!

Whatever you do, enjoy the season!

Happy Birthday from your family at PCP!

Please remember, when it is your turn to bring snack, to label all food with your child's name and the date. Please take left over food home with you each night. The State requires us to have all food labeled in the refrigerator.

Thank you so much!

Your child may have participated in our practice fire and tornado drill this week. They are not meant to scare children, but to help us feel prepared in case of an emergency.
